

Diya Ditto

Computer Science Engineering Graduate • Frontend Developer • React Developer

+91 7306457535 • diyadittop@gmail.com • [GitHub](#) • [LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science Engineering graduate with experience in frontend development and responsive web applications. Skilled in React.js, JavaScript, HTML, CSS, Tailwind CSS and Git. Interested in Software Development and Frontend Engineering roles and focused on building scalable, user-centric applications.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, SQL

Frontend Technologies: HTML5, CSS3, React.js, Tailwind CSS, Responsive Design

Backend Technologies: Node.js, Express.js(Basics)

Databases: MongoDB,MySQL

Developer Tools: Git, GitHub, VS Code

Core CS: Data Structures, OOP, DBMS, Operating Systems

PROJECTS

AI-Based Traffic Control and Emergency Vehicle Priority System [GitHub](#) 2025–2026
Python, SUMO Simulation, AI Concepts Major Project

- Built an intelligent traffic management system using SUMO simulation to optimize traffic flow and reduce congestion.
- Implemented emergency vehicle prioritization through adaptive traffic signal control mechanisms.
- Analyzed simulated traffic scenarios and improved decision-making efficiency for traffic management.

Placement Resource and Academic Portal [GitHub](#) 2024–2025
HTML, CSS, JavaScript Mini Project

- Developed a centralized web platform for placement preparation resources and academic materials.
- Designed a responsive user interface to improve accessibility and navigation experience.
- Streamlined student access to resources through structured content organization.

Modern Developer Portfolio Website [GitHub](#) 2026
React.js, Tailwind CSS, Framer Motion Personal Project

- Designed and developed a fully responsive developer portfolio with modern UI principles.
- Integrated animations, reusable components, and responsive layouts for enhanced user experience.
- Showcased projects, skills, and professional profile through a production-ready portfolio website.

Borewell Surveyor Website [GitHub](#) 2026
React.js, Tailwind CSS, Framer Motion Personal Project

- Developed a responsive web platform for borewell surveying and groundwater-related service presentation.
- Created modular React components and responsive layouts for improved maintainability.
- Integrated animated UI interactions using Framer Motion to enhance usability.
- Designed structured service and contact workflows for better user engagement.

ACHIEVEMENTS

- Selected among top 60 participants for Kerala Startup Mission cohort program.
- Secured 4th position in IEEE Kochi Hub Buildathon Hackathon (2024–2025).
- Participated in a 24-hour AI-focused hackathon and collaborated on innovative solutions.
- Worked on AI and healthcare-oriented solutions focused on accessibility improvements.

INTERNSHIP & CERTIFICATIONS

Artificial Intelligence and Machine Learning Internship 2025
6-Week Internship IBM

- Completed training in Artificial Intelligence and Machine Learning fundamentals.
- Worked on practical AI concepts, data handling, and machine learning workflows.
- Gained understanding of intelligent systems and real-world AI applications.

EDUCATION

College of Engineering Chengannur Kerala, India
Bachelor of Technology (B.Tech) in Computer Science Engineering — CGPA: 8.4/10 2022–2026
